**PLEASE BRING THIS
CATALOGUE TO THE SALE**

WATTLE FARM BORDERS

Wattle Farm Border Leicester Stud was established by Jeff Sutton and his family and operates on the western outskirts of the Riverina town of Temora. The stud was formed in 2005 with the purchase of stud rams and ewes from the highly regarded Cadell Stud.

At Wattle Farm we breed our Border Leicesters with genetics you can trust which produce sheep of excellent quality, constitution, growth, length, muscling and fertility.

In 2010, Wattle Farm acquired the Young Border Leicester Australian Ram of the year which introduced Kelso genetics, Wattle Farm also has a significant financial share in the 2011 Grand Champion Ram of the Australian Sheep Show. In 2013 we acquired two further quality sires, Coolawang Impact (Royal Adelaide Champion 2013) and Bindaree Supreme Vintage (2nd Aust Sheep Show 2013).

We have been showing our Sheep now since 2008 with tremendous success. Wattle Farm has won The Supreme Prime lamb Sire of Sydney Royal and the Grand Champion Ram of the Australian Sheep Show. Our recent success also included Grand Champion Ram at Sydney Royal 2014, along with the Longwool interbreed champion 2014 at Dubbo. We continue to support the local Riverina shows also as part of our commitment to the breed.

Wattle Farm has also received many accolades for our Border Leicester Wool with many awards being won including the Reserve Champion British Breeds Fleece of the Australian Sheep and Wool Show and best British breeds fleece of Melbourne Royal Show 2013

Jeff Sutton is the current Vice President of the NSW Border Leicester Association, an Executive Committee member of the Australian Border Leicester Association and is on the Federal Panel of Sheep judges. Wattle Farm is a proud member of Sheep Genetics Australia.

DELIVERY

Wattle Farm Offers a complimentary delivery service of Rams and Ewes to our clients in the Riverina area, (numbers permitting).

For more details please see www.wattlefarm.com.au

WATTLE FARM'S HEALTH STATUS

At Wattle Farm we pay particular attention to detail when it comes to the health of our stock and we ensure we follow criteria including:

- Registered Flock 4714
- PIC number is NA 552894
- We are Brucellosis accredited free flock (Reg Y.500)
- All sheep are routinely inspected and are foot rot free
- Quality genetics are used from proven Sire lines
- **All Sheep at Wattle Farm are Gudair vaccinated against OJD**
- Wattle Farm continue to use Animal Health Statements for the sale of our sheep so buyers can maintain knowledge.
- All fences at Wattle Farm are constantly inspected and are in quality condition.
- All sheep are routinely inspected and monitored.
- All transport trailers / truck are properly cleaned routinely.
- All sheep routinely drenched
- Treatment with Clik & Avenge at shearing & crutching
- We performance test all our Border Leicesters using sheep genetics approved scanning.
- To ensure the highest possible standards we cull heavily to make sure only the best breeding stock is retained and there the best progeny is available to our clients.

WHAT DO AUSTRALIAN SHEEP BREEDING VALUES (ASBV'S) MEAN.

The definitions are:

MWWT: Maternal Weaning weight, related to milking ability of the female progeny. Measured in kg's.

WWT: Weaning weight. (With MWWT relevant to the sucker industry).

PWWT: Post weaning weight. An Indication of the lambs ability to grow after weaning.

PFAT: Post fat weaning fat which is measured also in mm.

PEMD: Post Weaning Eye Muscle Depth.

Index: Summary of all the above, collated to a general/first cross index.

Individual ASBV's will be available for all stock sale day for flock ram buyers.

Wattle Farm offers ongoing support to all our clients and a guarantee of soundness, health and fertility for any sheep we sell. We are confident that our sheep are the type that will increase profitability and sustainability of your breeding flock.

For your information please give due consideration to the following:

- Possible Insurance Cover for your Stud or flock rams for the next 6 months as rams are susceptible to injury and death in this period.
- Your new ram(s) are better placed in a paddock away from other rams and ewes until joining where he can be feed well and looked after right up until joining
- Lupins are a very good supplement around 6 weeks from joining and a proven method of increasing semen quality .
- Rams tend to work much better with a shorter fleece so shearing should be considered which will consequently limit the potential for flystrike and grass seed issues
- Remember before sending your rams out to work, check teeth, check stones and check feet and make sure all are in excellent order.
- Your new ram is best placed with mature ewes and should not be overworked as he is your investment for future years to come.
- Every time you have your rams in the yards check them thoroughly to ensure a long productive life to get the best out of them.
- Drench your rams and maintain 6 in 1 vaccinations.
- Take care of your Wattle Farm purchases as they will take care of you.

At Landmark, you can rely on a vast network of committed advisors who have the resources and the expertise for all your livestock needs.

Our combined experience and our knowledge of the livestock industry, means we can add real value to your business and help you make the most of every opportunity.

We understand the buying and selling of sheep and cattle, and with access to more domestic markets and international partnerships, we can secure better prices for you. That’s why more Australian farmers look to us.
